YOUR TURN-KEY SMART LOCKER SOLUTION

- Fully customizable integrated Smart Locker hardware
- Cloud management software
- Installation services
- On-site maintenance service
- 1-800 & e-mail support
- Custom colours & vinyl wrap
- Integrated digital signage software

ABOUT US WHAT WE DO

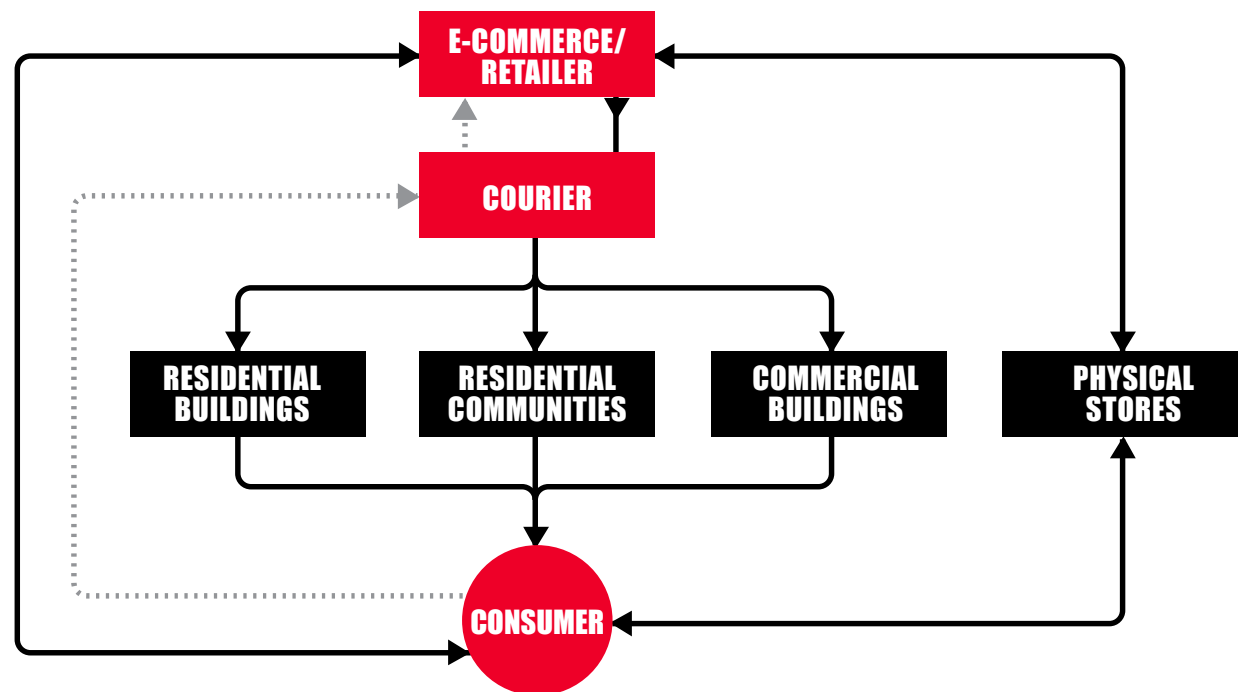

We design, develop and provide Automated Parcel Locker technologies and services that address the current problems with parcel logistics amplified by the dramatic growth in e-commerce.

CURRENT ENVIRONMENT

E-COMMERCE PARCEL LOGISTICS

- Consumers purchase from online retailers
- Retailers ship to the consumer via express courier or make it available at their store for pickup
- Consumers receive their orders at their home, place of work, or at the store
- Unwanted or damaged products are returned to the retailer using a courier or in-store

THE PROBLEM

THE SHORTFALLS OF PARCEL LOGISTICS

CURRENT

ACCELERATORS

- Growth in Online Shopping – consumers are increasingly buying online and activity is expected to double over the next 4 years
- Retail Competition – consumers are demanding more convenience, more choice and lower costs in how they receive and return their purchases
- Rise in Self-serve – consumers are increasingly expecting to have access to self-serve options in their everyday life
- Rise of Social Responsibility – consumers prefer working with sustainable companies that are environmentally friendly
- COVID-19 – the pandemic has irreversibly altered consumer behaviour – it has driven up online buying, created a demand for contactless transactions & expectations of more convenience

THE PROBLEM

THE SHORTFALLS OF PARCEL LOGISTICS

01

As parcel volumes rise couriers' residential shipping costs increase - driving up costs for retailers and consumers.

02

Parcel theft at homes and in unstaffed residential buildings is significant & rising.

03

Returning goods purchased online is often difficult and costly for consumers (regardless of who pays for it).

04

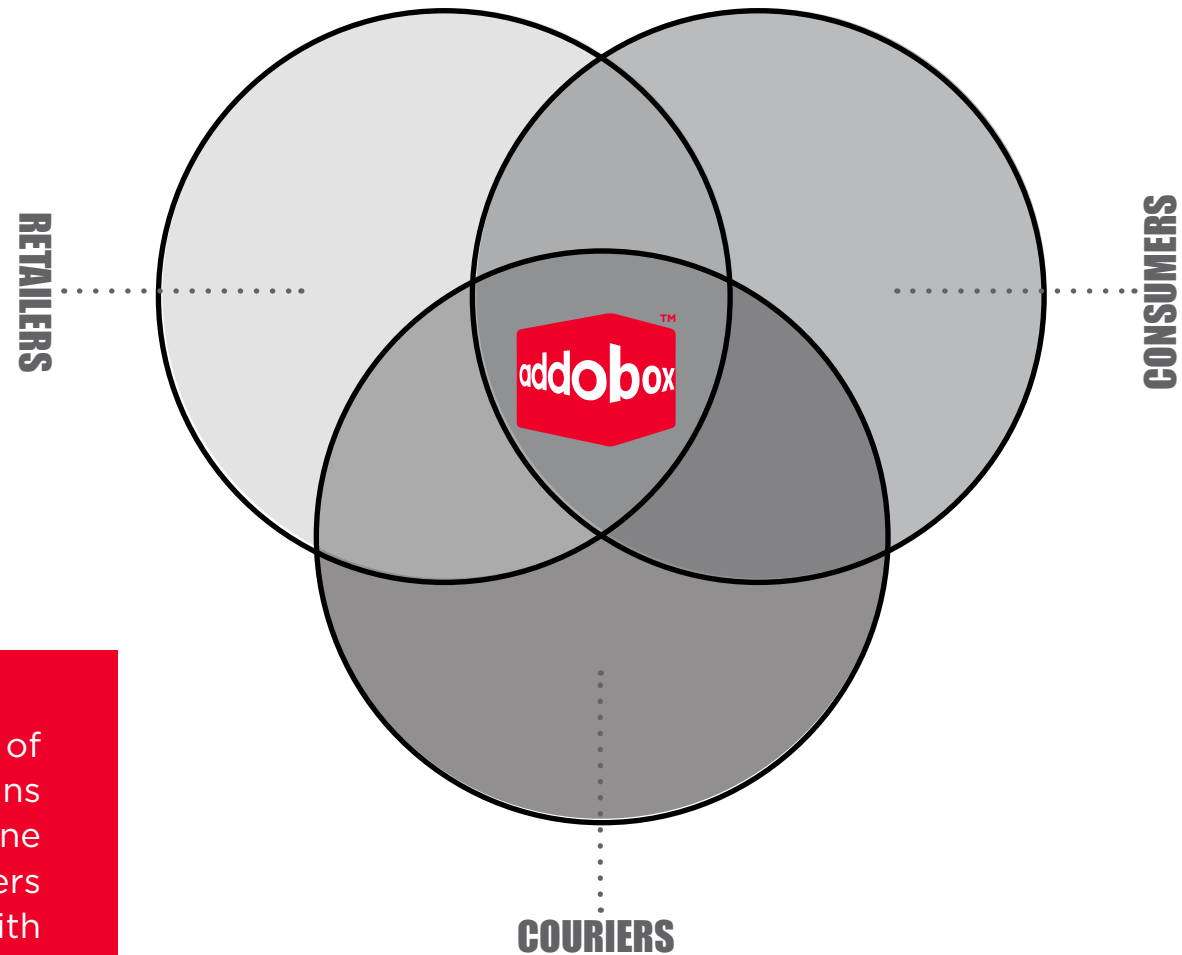

Property Managers' costs rise as they try to handle an increasing number of parcels on behalf of their residents.

05

Current delivery methods and processes are not optimal for the environment or the liveability of our cities.

THE SOLUTION

SMART PARCEL LOCKER ECOSYSTEM

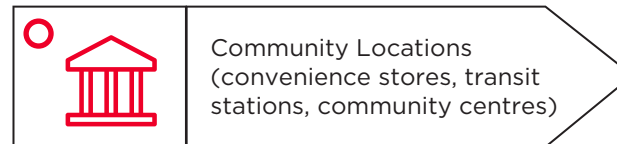

Building & developing a network of Smart Parcel Lockers that underpins an ecosystem of e-commerce/online stores retailers, consumers & couriers that address the current issues with parcel logistics, bringing increased value to the participants as it grows.

THE SOLUTION

BENEFITS BY PARTICIPANT & LOCATION

The table below outlines the benefits derived by each of the participants by having a Smart Parcel Locker in the locations shown (retail store, community location and multi-family building).

BENEFIT	RETAILERS/ ONLINE STORES/ E-COMMERCE	CONSUMER	COURIER
Lower shipping costs	○ ○ ○	○ ○ ○	○ ○
Lower product return costs	○ ○ ○	○ ○ ○	
No missed deliveries	○ ○ ○	○ ○ ○	○ ○
No parcel theft	○ ○ ○	○ ○ ○	○ ○
Convenient pickup option	○	○ ○ ○	
Convenient product return option	○	○ ○ ○	○ ○ ○

ADDOBOX™ IS THE PERFECT SOLUTION FOR THE FOLLOWING INDUSTRIES:

RESIDENTIAL

RETAIL

HOTELS

TRANSPORT

POST OFFICE

EDUCATIONAL INSTITUTIONS

STADIUMS

FITNESS

RETAIL / E-COMMERCE

(BUY ONLINE & PICKUP IN STORE)

- Increase foot traffic in store
- Reduce/eliminate staff time by not having to serve customers at the pickup counter
- Customers can pick up their online orders in less than 15 seconds
- Allows retailers to economically and conveniently offer another method for customers to receive their online orders
- Removes the necessity for customers to make personal contact when picking up their orders (especially important with COVID-19 concerns)
- Use the locker for outbound courier shipments (for stores who are fulfilling orders to local customers who want delivery for their online orders or those who buy instore but want it shipped out)
- Digital signage can be used to advertise and promote sales or products

MULTI-RESIDENTIAL PROPERTIES AND COMMERCIAL BUILDINGS

- Save personnel time handling parcels (about 6 minutes per parcel)
- Removes the necessity for residents to make personal contact to pick up a parcel (especially important with COVID-19 concerns)
- Pickups can be done in less than 15 seconds instead of 2 to 3 minutes (when they have to get it from the concierge)
- Locker is available 24/7 unlike dealing with on-site personnel who are often not at their desks
- Privacy – building personnel will no longer see what residents are receiving
- Security – parcels are securely locked in a slot that is available only to the intended resident (no parcel theft)
- No missed deliveries
- Outbound shipping (future feature) – residents can ship parcels from the locker to anywhere in the world
- Product returns (future feature) – residents can conveniently drop off products that they need to return to the retailer who they purchased from

EXPRESS COURIERS

- Significantly lower the cost of last-mile delivery
- Reduce/eliminate the cost in their retail centres by offering consignees an efficient and quick way to pick up their shipments (instead of going to the customer service counter) and eliminate direct personal contact in the process
- Eliminate missed residential deliveries (currently running at over 30% of all shipments)
- Use as a dropbox for outbound shipments
- Provide their customers with an alternate shipping option who can then offer it to their customers (e.g. retailers)
- Allows them to offer their retail customers an inexpensive method for product returns (reverse logistics)

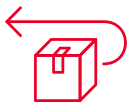

ADDOBOX™ HIGHLIGHTS

**ORDER ONLINE, PICK-UP
AT YOUR CONVENIENCE**

**24 HOURS A DAY,
7 DAYS A WEEK**

PACKAGE PICK-UP AND RETURN

INSTANT MOBILE NOTIFICATIONS

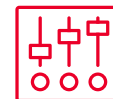

DIGITAL SIGNAGE

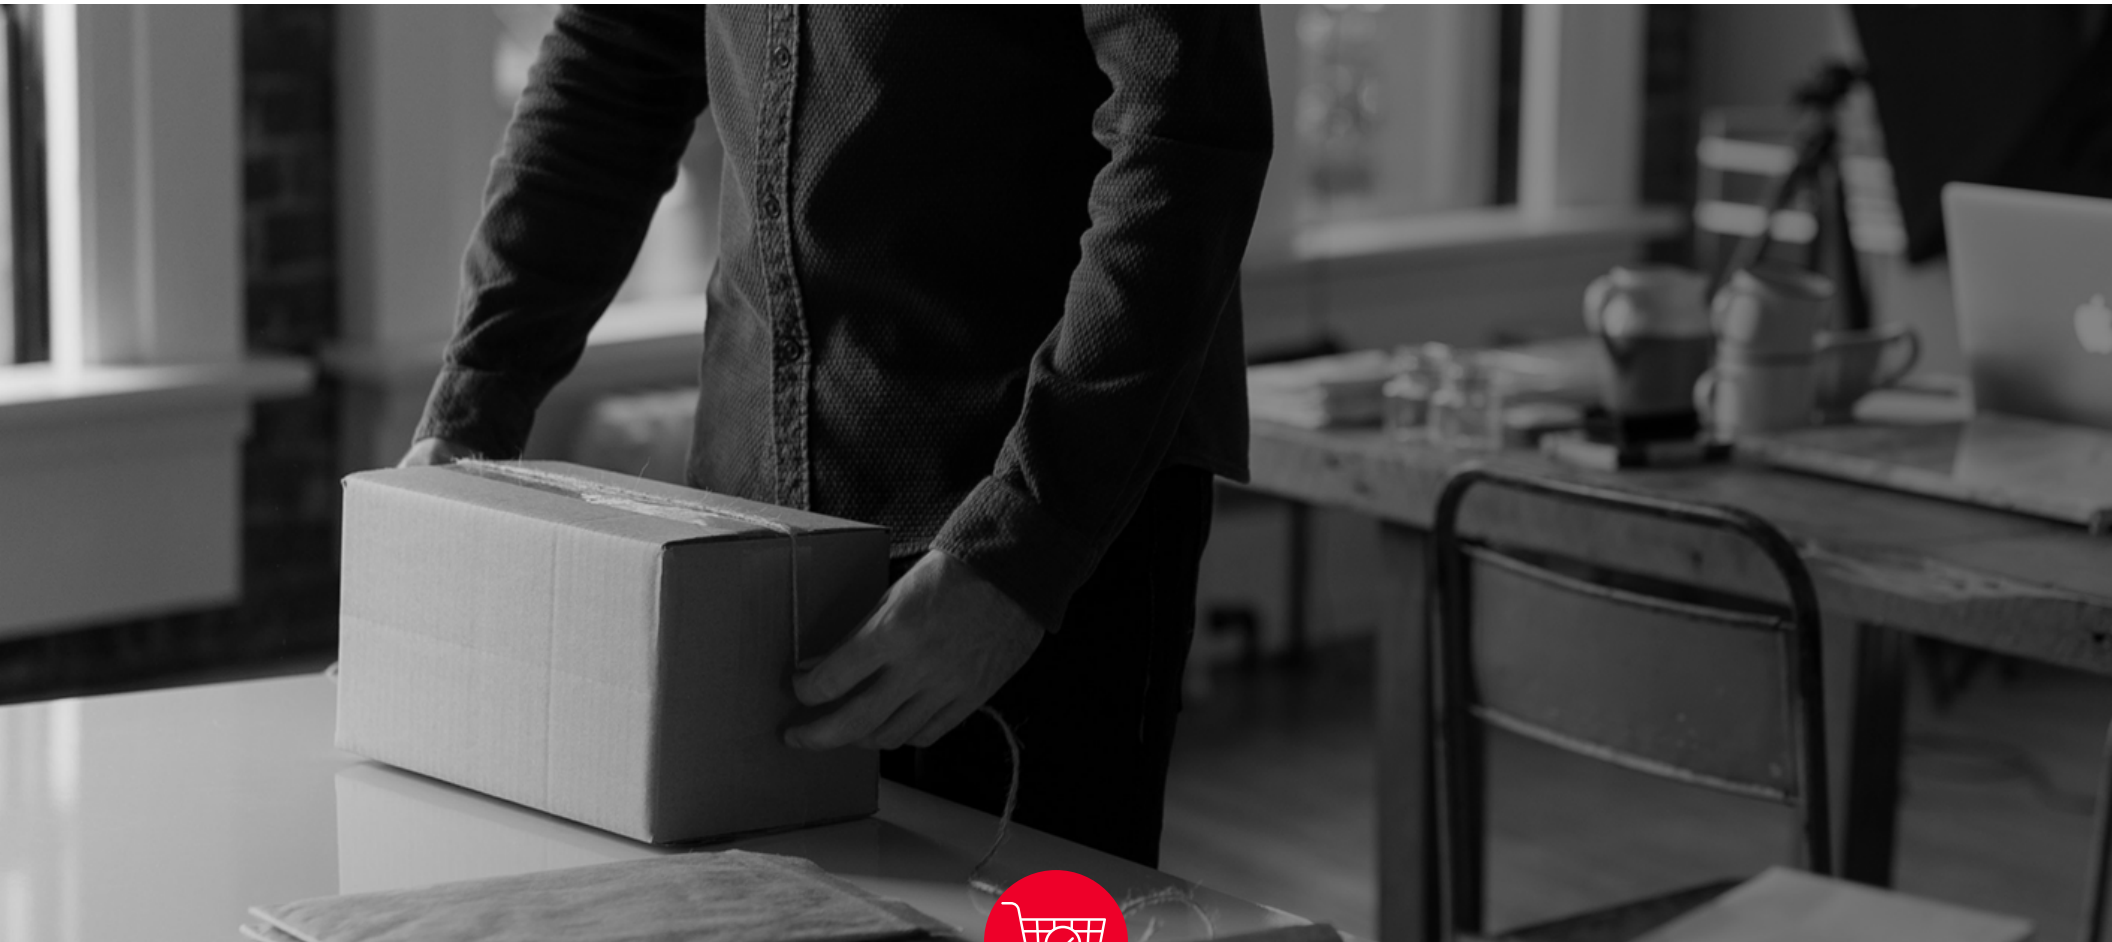

FULLY CUSTOMIZABLE

REDUCE THEFT

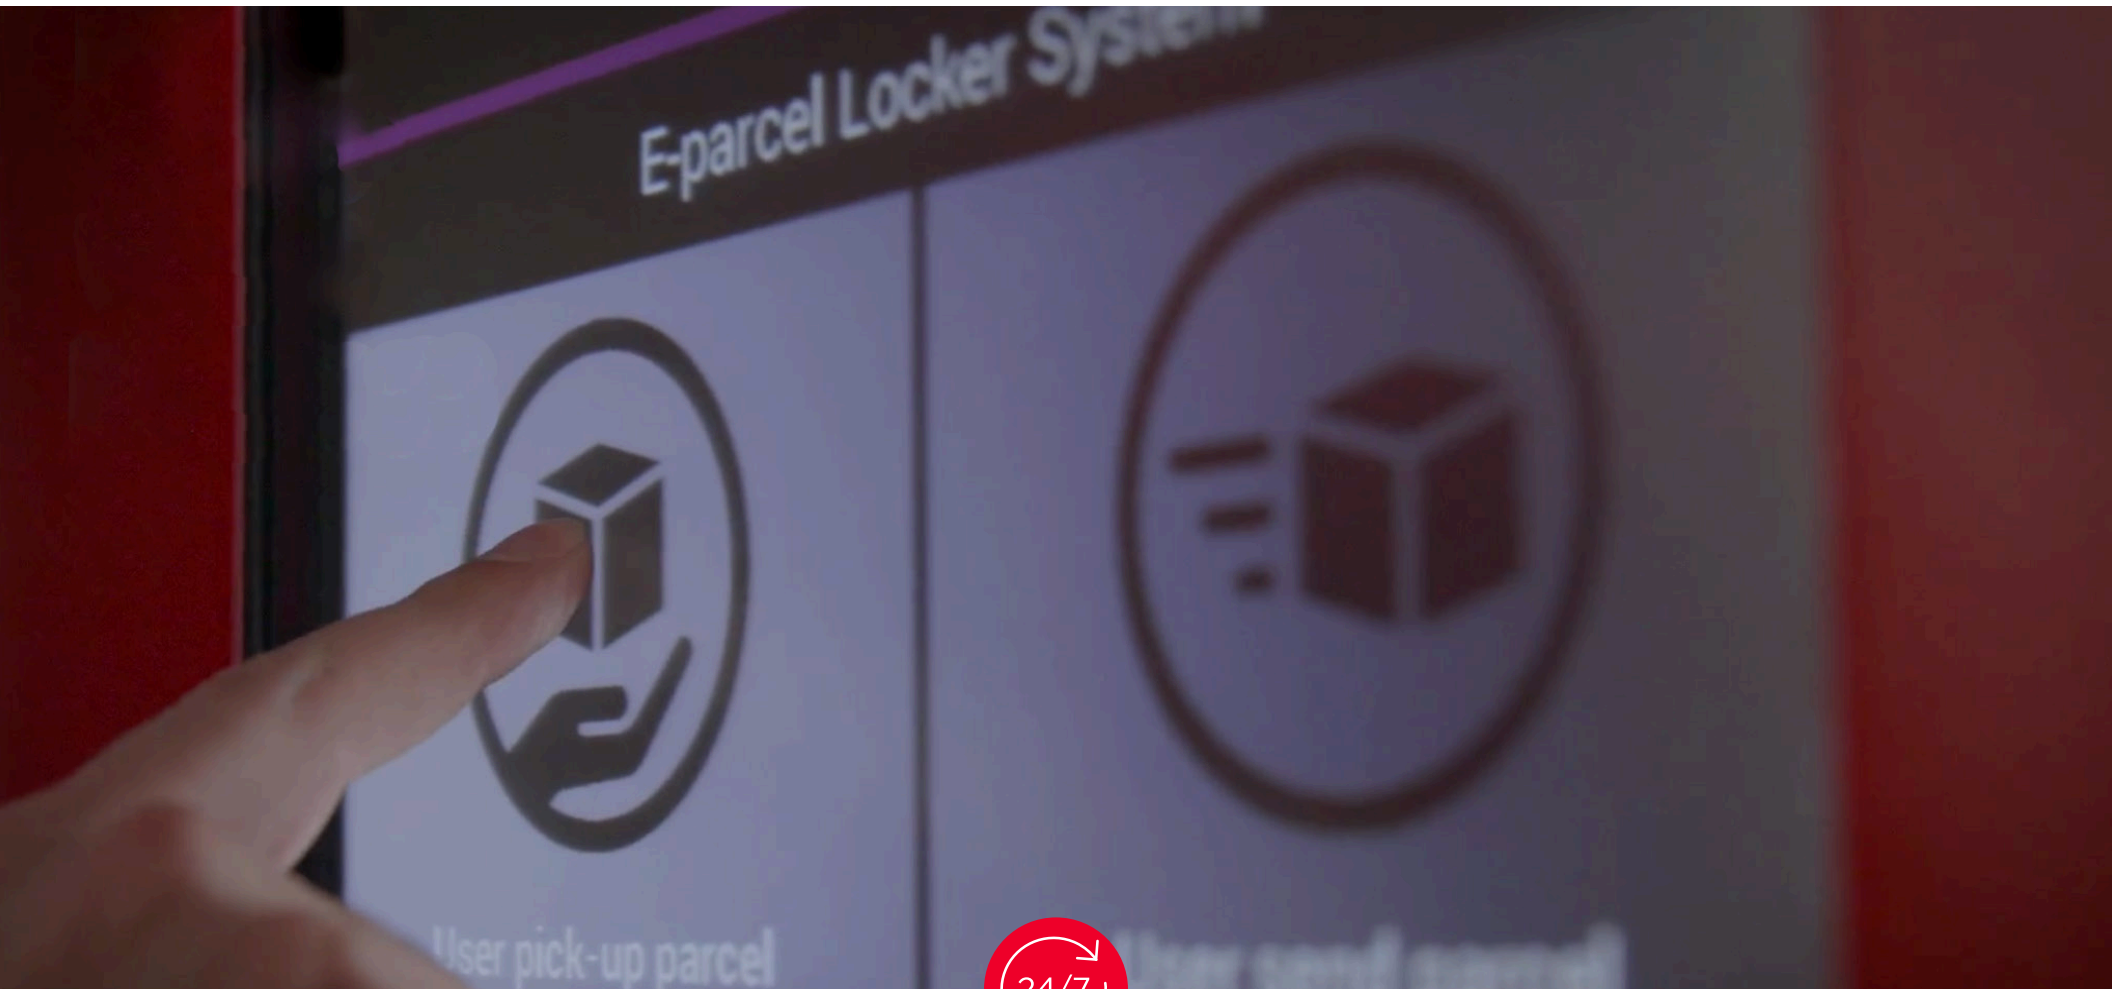

BACKSTAGE MANAGEMENT

ORDER ONLINE, PICK-UP AT YOUR CONVENIENCE

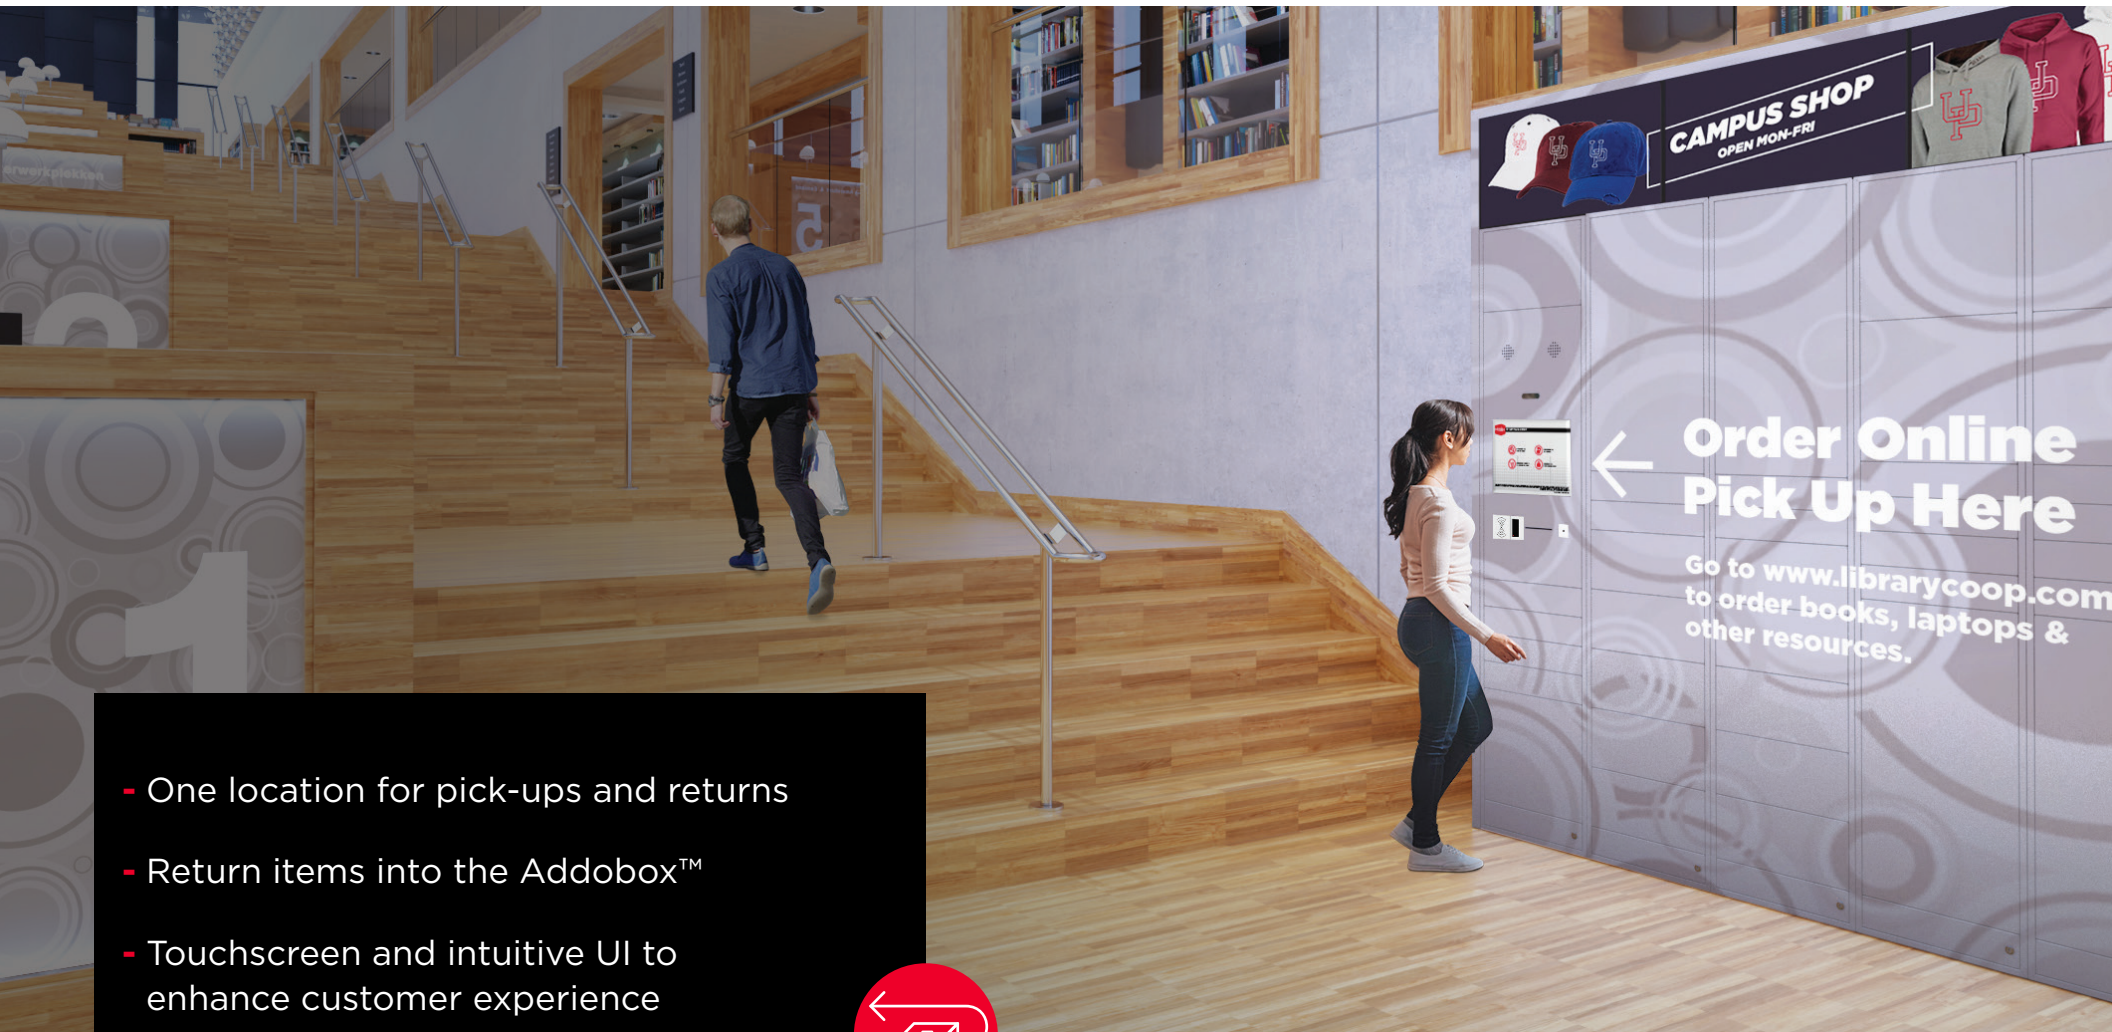

- Customers can order online at any time
- No more missed, lost or stolen deliveries

24 HOURS A DAY, 7 DAYS A WEEK

- No need for extra staff to monitor lockers

PACKAGE PICK-UP AND RETURN

- One location for pick-ups and returns
- Return items into the Addobox™
- Touchscreen and intuitive UI to enhance customer experience

HOW IT WORKS - PICKUPS

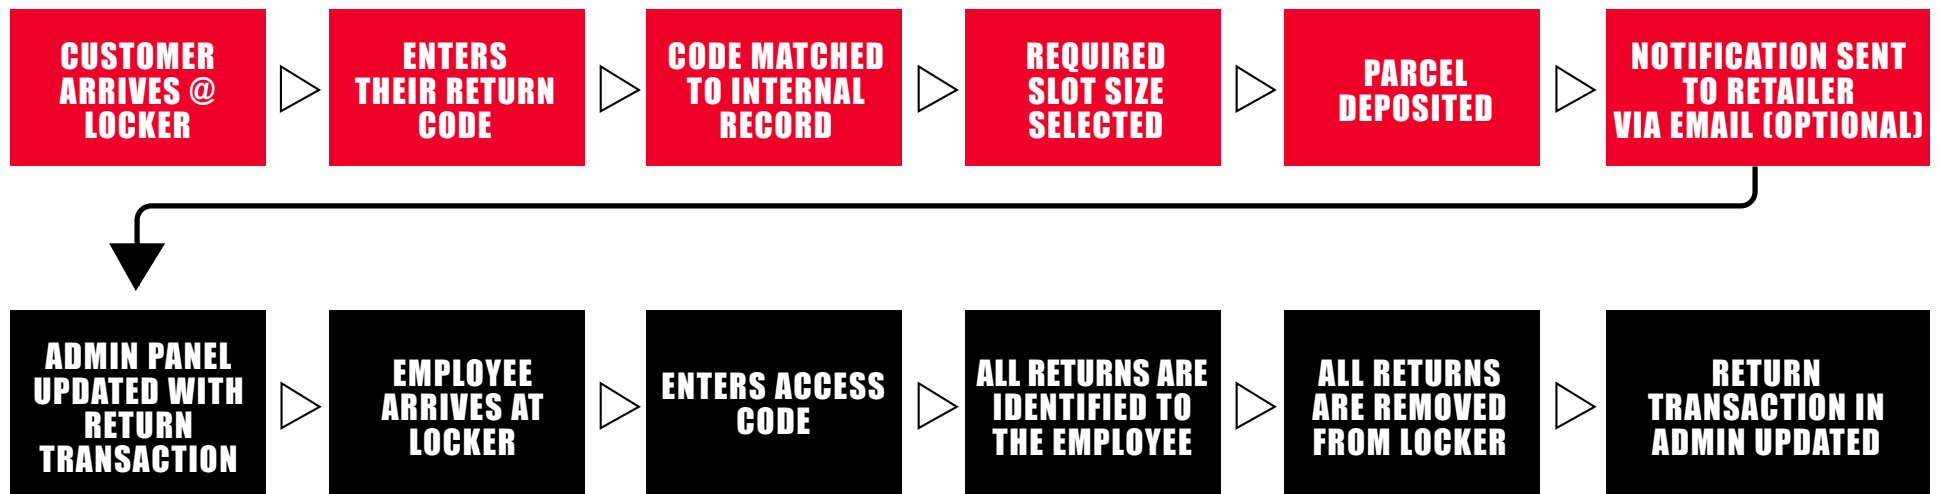

Our Smart Lockers are designed to streamline the process of order drop-off, pickups and returns. The typical steps are outlined below but our software can be configured to support your specific requirements.

Our software supports the following features:

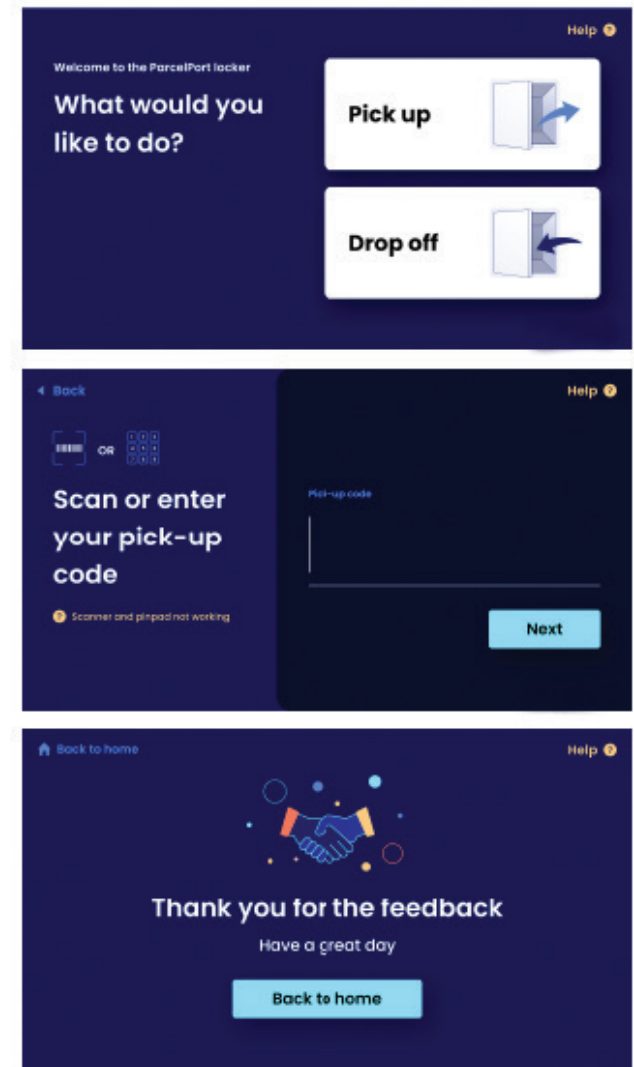

- Automated message reminders to customers
- Configurable order expiry timeframes
- Automated expired order removal from locker

HOW IT WORKS - RETURNS

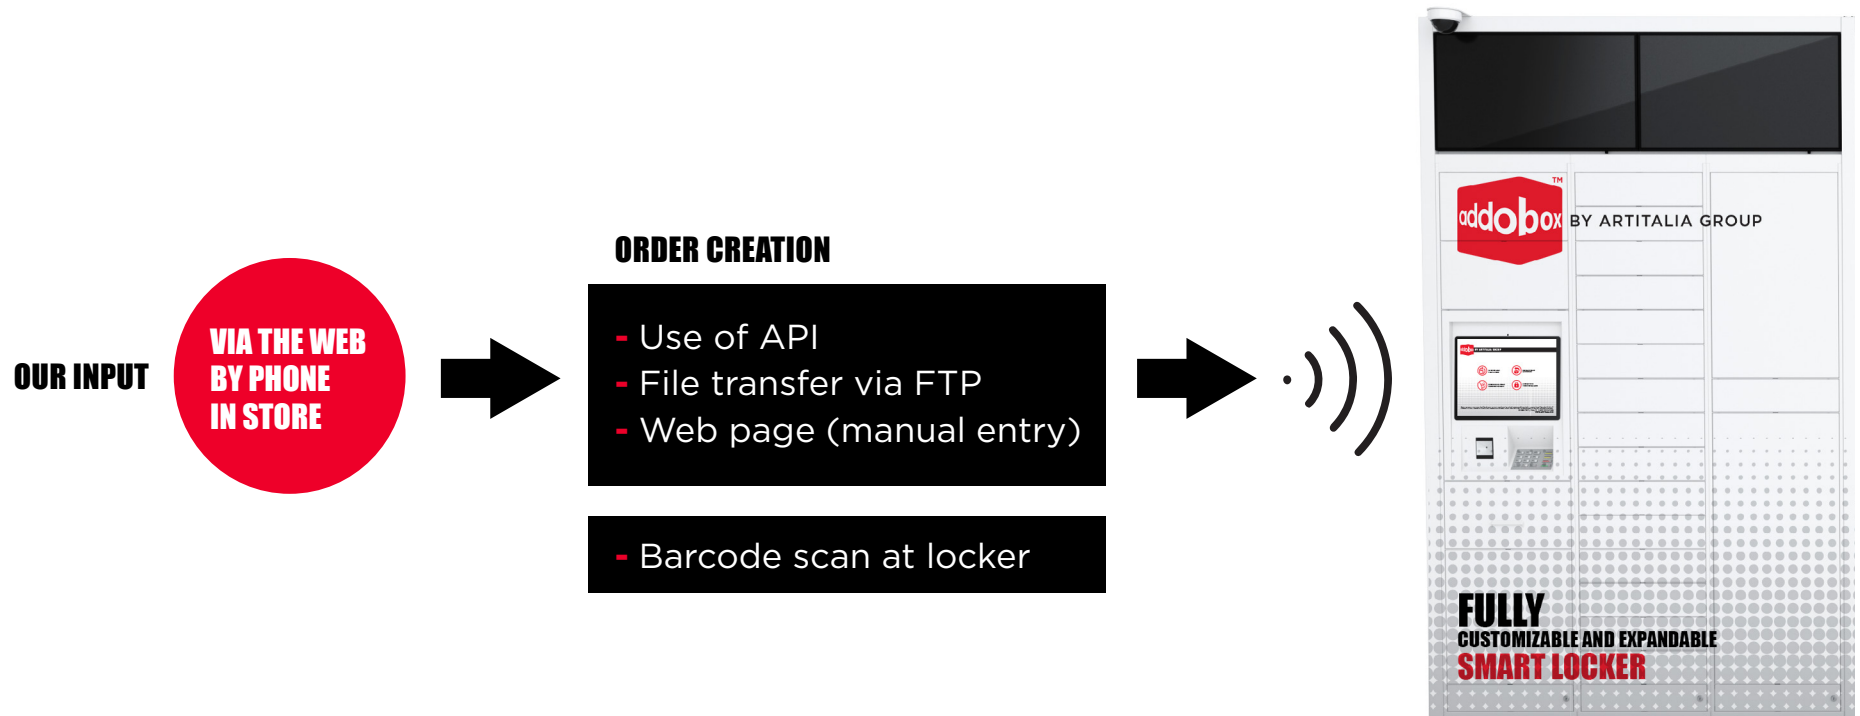

LOCKER SOFTWARE

- Smart Locker hardware
- Intuitive & easy to use interface
- Single scan drop off & pickup
- Visual & auditory user prompts
- Multilingual
- Automated parcel expiry pickup
- Optional user rating & feedback
- Recipient SMS (text) & email notifications
- Remote software updates
- Integrates with store systems
- Customizable branding
- Synced with our cloud software

INTEGRATION METHODS

Our Smart Lockers can receive order information in advance of a deposit into the locker to allow for a rapid drop-off, pickup and return process. Most are via the cloud but we can also get that information simply from a barcode scan.

	# OF SLOTS	FULL PHYSICAL SIZE (INCHES)
1 Host + 2 Locker Banks	8 – 29	80 H X 61 W X 25 D
