SHIELDS FOR RESTAURANT TABLES

Artitalia Group Inc. has designed and manufactured the ideal solution to provide customers who love to dine out—all while complying with health and safety guidelines—with the Restaurant Table Shield.

Enjoy your meal with your family and friends all while keeping a safe distance from others with these customizable transparent partitions that are easy to install, contain germicidal plastic and powder coated steel, and can be used in a variety of locations such as restaurants, food courts, and cafeterias.

Don't let social distancing keep you away from socializing with your friends—find a table with a restaurant shield and pick up right where you left off before the pandemic!
