ADDOBOX™ Multi-Family Residential SMART LOCKERS

THE NEXT CHAPTER IN AUTOMATED PARCEL DELIVERY AND OMNI-CHANNEL SOLUTIONS.

August, 2021 | artitalia.com/addobox

OVERVIEW

INTRODUCTION

With the current increase in online sales and e-commerce, managing parcels has become an increasingly challenging task in staffed and unstaffed buildings. In unstaffed buildings, lobbies and hallways are quickly becoming overwhelmed with an onslaught of parcels. This situation is causing an increasing number of packages to get stolen or lost in the mix. Similarly, in staffed buildings, concierge and property management employees are inundated daily with packages. Whereas most of the items are safe, the challenge here is organizing them to send to the proper recipients.

WHAT IS ADDOBOX™?

Our Smart Locker is a fully automated and secure solution that allows for the deposit, storage and return of parcels for both indoor and outdoor use.

HOW IT WORKS

Our Smart Locker Solution for Multi-Family Residence automates the process of receiving, storing and dispensing parcels that are delivered by express courier. It is courier agnostic allowing drivers to quickly and securely drop off their parcels into the locker. Once deposited, automated electronic notifications are sent to the resident with a pickup code that they scan at the locker to quickly retrieve their parcel 24/7.

Our Smart Lockers are designed to streamline the process of courier drop-off and pick-up. The locker supports the following process for all parcel deliveries and pickups.

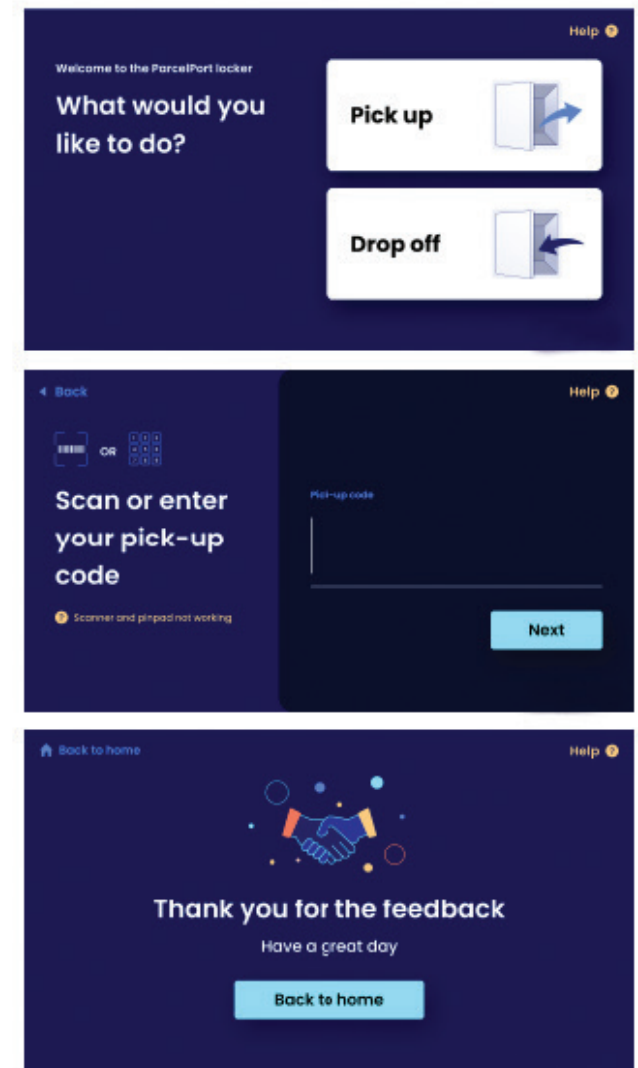

Our software supports the following features:

- Automated message reminders to residents
- Configurable shipment expiry timeframes
- Automated expired shipment removal process

LOCKER SOFTWARE

- Multi-courier access
- Intuitive & easy to use interface
- Single scan drop off & pickup
- Automated pickup reminders for residents
- Multilingual
- 24/7 locker monitoring
- Configurable shipment expiry times
- Recipient SMS (text) & email notifications
- Synced with our cloud software

PM SOFTWARE INTEGRATION

Our Smart Lockers can integrate with most Property Management software. This integration allows for the auto-registration on the locker for all residents, existing and new.

STANDARD LOCKER SIZES

Lockers and locker sizes can be custom designed and manufactured to fit your specific needs.

COURIER DROP-OFF

Our Smart Lockers are designed to allow any courier to deposit your residents' shipments. Our software specifically supports the following couriers:

Any courier not listed can deposit into our locker through a "Front Desk" option. This option allows your staff to provide the courier with an access barcode that they can scan at the locker, access the locker directory and deposit the shipment.

KEY NOTES:

- Canada Post does not deliver to any 3rd party locker – optionally your building staff can deposit those shipments into our locker
- Other couriers will be added in the future as warranted

ADDOBOX™ IS THE PERFECT SOLUTION FOR THE FOLLOWING INDUSTRIES:

RESIDENTIAL

RETAIL

HOTELS

TRANSPORT

POST OFFICE

EDUCATIONAL INSTITUTIONS

STADIUMS

FITNESS

FUTURE LOCKER SERVICES

We will continue to evolve the capabilities of the Smart Locker and envision it being capable of providing the following services:

- Outbound courier shipping
- Retail product returns
- Receipt of alcohol
- Food storage (hot/cold)
- Key exchange
- Dry cleaning
