

Bringing Convenience Back to the Convenience Store.

Save Time on Transactions
and Increase Revenue with the
Audimac Push

BRINGING CONVENIENCE BACK
TO THE CONVENIENCE STORE

What is the Audimac™ Push

The Audimac™ Push is a manual distribution system designed to dispense controlled products while simplifying the clerks tasks, generating faster transactions and reducing theft.

VIDEO 
AUTOMATED DISPENSER AUDIMAC™ PUSH

How Audimac™ Push Simplifies Tobacco Transactions

As of November 9, 2019, Health Canada will be enforcing strict rules for plain and standardized packaging of cigarettes and other tobacco products, which will require the removal of brand logos. With these new stricter tobacco laws looming, store clerks will have an even harder time handling and selling cigarettes.

Equipped with a patented “push” type dispensing system, Audimac™ Push dispenses packs quickly, all while reducing risk of theft.

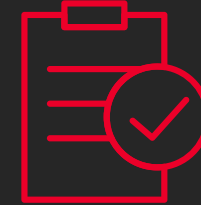

- Optional automated scanning system for quick and accurate inventory management
- Optional touch screen tablet and automated dispensing system for even faster transactions

Audimac™ Push Highlights

Fully Customizable

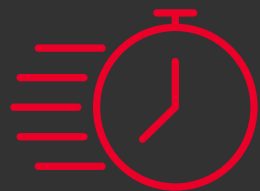

**Additional Options
