IN-STORE ASSOCIATE VIEW

DRIVE-THRU WINDOW FOR SOCIAL DISTANCING

Artitalia Group Inc. has designed a solution to help protect store associates at the restaurant level and their customers against the COVID-19 pandemic. Our drive-thru window easily rotates to allow store associates to safely provide service for clients. Energy efficient design as it does not require any electricity to function and its seal reduces the amount of hot/cold air lost from the interior. Secure transactions between store associates and customers, reduced risk of theft.
