SEMI-CLEAR PRIVACY PARTITIONS

Every service provider has been installing protective barriers these days to mitigate the spread of germs. If germ prevention is not your only concern, **Artitalia Group** has designed a solution that can also provide privacy. The Semi-clear Privacy Partitions are ideal in areas of your business where sensitive information is used or stored, all while protecting you and those who access this information safe from germs.

These semi-clear Privacy Partitions can be made in .118, .187, and .220 thick plexiglass and has excellent contact clarity. This optical clarity is relevant in any of today's businesses especially, in banks, pharmacies, health care centers, mall food courts, beauty salons, and much more. Offer your customers a sense of relief from germs while containing your privacy in vulnerable situations.
