

THE PROBLEM: One of the main problems that retail stores encounter with the increase demand for BOPIS is managing the space required to store packages and boxes.

THE SOLUTION: ADDOBOX™

ADDODBOX™ SMART LOCKER SOLUTION!

Addobox™ is a customizable automated smart locker designed for both indoor and outdoor use, which allows your customers to buy online and pick-up in store (BOPIS) or anywhere for that matter in a seamless way. Our Addobox™ system has become a popular option for both customers, retailers and logistics companies due to its convenience, speed and cost-effectiveness.

QUICKER AND EASIER TRANSACTIONS

Addobox™ pick-up lockers offer customers the convenience of picking up their online purchases at a time and location that is convenient for them, without having to wait in line. It's a faster and more efficient option for customers to receive their purchases, allowing them to either return their purchases back into the smart locker.
