

ART-CART ORDER PICKING CART

The next generation of innovative material handling solutions to help retailers with order picking and selecting.

A VERSATILE ORDER PICKING CART TO HELP STREAMLINE ORDER FULFILLMENT

The Art Cart was designed to not only maximize distribution center efficiency while picking orders but also to minimize the amount of floor space occupied when not in use. These innovative order picking carts gang together to reduce the number of trips, nest for ease of storage, are narrow and lightweight to maneuver, and are strong and flexible enough to hold multiple products.
