

THE PROBLEM: With standard drywall being limiting in both shape and size, and with the rising costs associated with construction material and labour, creating wall configurations that are cost-effective and less labour intensive can be challenging.

THE SOLUTION: AURA

AURA A FULLY CUSTOMIZABLE WALL SYSTEM

A modular and customizable wall system that allows for a variety of different configurations that is visually pleasing to any environment, and more importantly—structurally sound.

ENDLESS POSSIBILITIES BUILD IT YOUR WAY!

The AURA WALL SYSTEM® offers endless possibilities—fully customizable, cost-efficient, stable, and simple to install—and can be configured and arrange to meet your changing needs. A valuable solution that delivers operational and merchandising results by cutting down costs and saving installation time since mounting this lightweight wall system is nearly effortless and can be performed quickly with limited installers. Create and define spaces such as storage and fitting rooms, merchandising wall panels, even floor fixtures with this innovative wall system. Panels can be assembled to form a wall of any shape or form and can be branded to follow your look for consistent brand messaging. The AURA WALL SYSTEM® evolves with your business!
